

Funding search options: GrantFinder and Grantway

We want to help you bring your local community projects to life – and often that can depend on helping you to secure the right funding.

There are so many funding pots available out there and competition for grants can be fierce, so where do you start?

We can make your search for funding easier. We help groups access support independently wherever possible, as well as being there for groups who need additional help. We have two distinct funding search options available:

1. **A supported funding search** – we use [GrantFinder](#), a leading funding database in the UK covering local, national, and international sources of funding, to carry out detailed searches to match the right funds to your need. Once we've done a search, we'll send you a customised funding report.

Because GrantFinder is updated in real-time, we'll only tell you about funds that are up to date.

The database includes not just the well-known funding providers, such as The National Lottery Community Fund, but many of the less well-publicised pots of money – helping you to increase your chances of success. It may be that our search throws up funds that you would have never thought about applying to before – but if that helps secure your group or project's future, even better!

Get in touch with our [Community Support North Yorkshire team](#) to chat about what your project or group are looking for.

2. **Self-serving funding search** – you can use [Grantway](#) to search for grants yourself. Grantway is a free, innovative, user-friendly new search portal, designed to make it easy for charity and volunteer organisations to find and obtain essential funding. Please note you can search grants available in Yorkshire and the Humber, but you cannot sort by grants available solely in North Yorkshire.

Get the help you need

There are many ways we can [help you](#) increase the funding potential of your organisation. If you're a trustee, employee, member of a management committee or a voluntary, community or social enterprise (VCSE) group in North Yorkshire, simply complete our [online enquiry form](#) or call 01904 704177 and one of our development officers will contact you.
